

COZ Weekly Report #1

This is the City of Zion's (COZ's) first weekly report. These reports are designed to to inform the core NEO team on work we have been doing to improve the NEO platform and ecosystem.

COZ is a group of open source developers that formed over the past weeks to support NEO. We recently established communication channels with the core NEO team in China and have begun to provide them with weekly reports that summarize our goals, projects, and progress. In exchange, Neo is supporting these contributions through ANS rewards. To encourage a more transparent community, we have decided to publish these reports and the total amount of offered reward.

The community has decided to reward 1457 ANS for the efforts listed below

Campaigns:

Stack Exchange:

- StackExchange community (<https://area51.stackexchange.com/proposals/110921/neo-blockchain>)
 - We are now in the *Commitment Phase* of the Proposal. Thanks to everyone who added questions or voted to get us through the first phase!
 - We now need people to commit to support the site. You can do so here: <https://area51.stackexchange.com/proposals/110921/neo-blockchain?commit=1>
 - There will be a 20 ANS reward for 10 different contributors of top questions: https://www.reddit.com/r/Antshares/comments/6lwqa8/community_will_reward_20_ans_to_10_users_for/
 - To reiterate, the Definition phase (example questions) has been closed! The winners will be selected on July 15, 6 AM EST as planned! Be sure that your username on the Stack Exchange matches your Reddit username so that we can find you! (You can change your Stack Exchange username if needed.)

Documentation (<https://github.com/CityOfZion/docs>):

- Refinement of initial documentation translation
- Network protocol documentation
- Consensus documentation
- Workflow process finalization and documentation

Ecosystem:

- CoZ technical review process
- Formation of community council (<https://github.com/CityOfZion/governance>)

- Establishing clear, direct channels to NEO core members in China
- Community resources lists (<https://github.com/CityOfZion/community-resources>)
- AntShares school video mirror on Youtube + Subtitles
 - <https://www.youtube.com/watch?v=V2basIRwTgs&list=PLH5FKiukNRU5SHWk9L6qPwRhMeHsiKL2T> (3/9 subtitles awaiting approval)
- Faster blockchain bootstrap download mirrors
 - MEGA
(<https://mega.nz/#!kKx2VKDC!xUBW1bdNfJ5Dr81pIlkyl6NraXkoYvb9eehW3Z8zme8>)
 - Google Drive
(<https://drive.google.com/file/d/0B902ABEfKU8YRHBzd05wNm1SRGM/view>)
- NEO slack bot (<https://github.com/CityOfZion/neo-slack-bot>)
- Trello integration (including public feature request support)

Core:

- Improvements to CLI (<https://github.com/CityOfZion/AntSharesCore>)
 - Making it work on OSX
 - Adding claim and check balance functionality for ANC
- JS SDK (<https://github.com/CityOfZion/neo-js-sdk>)
 - Minimal SDK with working transaction and a few tests, begun refactoring

Projects in early development (opportunities for collaboration):

- Unit testing on AntShares core (<https://github.com/CityOfZion/AntShares>)
- Youtube mirror of AntShares school videos with english subtitles
(<https://www.youtube.com/playlist?list=PLH5FKiukNRU5SHWk9L6qPwRhMeHsiKL2T>)
- New block explorer NEOScan (<https://github.com/CityOfZion/NEOScan>)
- Electron wallet (<https://github.com/CityOfZion/neo-electron-wallet>)
